

American Society of
Regional Anesthesia and Pain Medicine

Advancing the science and practice of regional anesthesia and pain medicine

Supporting companies

This course is supported, in part, by educational grants and in-kind support from industry. All support is managed in strict accordance with the ACCME's Standards for Commercial Support. Appropriate acknowledgement of all supporting organizations is made to participants prior to the educational activity in the program guide, on the event website, and with signage during the meeting. [View the guidelines for company representative and in-kind support.](#)

ASRA thanks the following organizations for their generous support

- **Grants:** Boston Scientific, Cosman Medical, Mallinckrodt, Medtronic, Pacira Pharmaceuticals, Pfizer, St. Jude Medical, Teva Pharmaceuticals
- **Durable equipment:** Allergan, Bioness, BK Ultrasound, Flowonix, FUJIFILM SonoSite, GE Healthcare, Medtronic
- **Disposable supplies:** Bioness, Benvenue Medical, Boston Scientific, Cosman Medical, Halyard Health, Medtronic, Nevro, Pajunk, StimWave, St. Jude Medical, Teleflex, Vertos Medical
- **Human tissue:** Boston Scientific

Exhibit and promotional support

Exhibit Hall Hours:

Thursday, Nov. 19th

- 7-8:15 am
- 9:45-11 am
- 3:45-4:45 pm
- 6:30-8 pm (Wine & Bubbly Networking Reception)

Friday, Nov. 20th

AcelRx Pharmaceuticals is a specialty pharmaceutical company focused on innovative therapies for the treatment of acute and breakthrough pain. Our lead products utilize sufentanil sublingual tablets, designed to address moderate-to-severe acute pain in hospital and/or medically supervised settings. [\[Back to Top\]](#)

Aeon Clinical (408)

Our mission at Aeon Clinical is better patient care through state of the art Toxicology testing, personalized Pharmacogenomics and Cancer Genomics. We are confident that partnering with us will provide you with the most accurate analysis and timely results to optimize your treatment plan. Housed in a 28,000 square foot facility in Gainesville, Georgia, Aeon Clinical is an industry leader committed to outstanding client support, cutting edge science and technology, and an unparalleled focus to deliver medical awareness. Use Aeon Clinical for your testing needs so you can Prescribe with Confidence. [\[Back to Top\]](#)

AIS Pain Care (406)

[\[Back to Top\]](#)

Altius Diagnostics Laboratory (312)

Altius Diagnostics Laboratory was founded by physicians who truly understand healthcare providers' needs when it comes to urine toxicology and medication monitoring. Our vision is to provide best-in-class services for you and your patients. Our well-tenured team of highly successful Ph.D. level scientists and toxicologists are ready to support your needs and assist with result interpretation. We utilize automated, online physician ordering and result retrieval that is accessible 24/7. Confirmed quantitative results are reported in 1-2 business days from receipt of sample. Contact us to learn how Altius Diagnostics is not "just another toxicology lab." [\[Back to Top\]](#)

American Anesthesiology (109)

American Anesthesiology, a division of MEDNAX Services, Inc., is a forward-thinking national group practice of more than 1,015 anesthesiologists and 1,445 anesthetists (CRNAs and AAs) focused on clinical quality, perioperative best practices and workflow management solutions. American anesthesiology gives clinicians the stability and support services needed to successfully navigate health care reform. For additional information about our group and the wide variety of clinical services we provide, please go to www.americananesthesiology.com. [[Back to Top](#)]

American Board of Anesthesiology (210)

The American Board of Anesthesiology (ABA) administers primary and subspecialty certification exams as well as the Maintenance of Certification in Anesthesiology Program (MOCA®), which is designed to promote lifelong learning, a commitment to quality clinical outcomes and patient safety. Please visit the ABA booth to get details about certification, subspecialty certification and MOCA. Staff can also guide you through the ABA website (www.theABA.org) and your portal account. [[Back to Top](#)]

AstraZeneca (517)

AstraZeneca is a global, innovation-driven biopharmaceutical business with a primary focus on the discovery, development and commercialization of prescription medicines for gastrointestinal, cardiovascular, neuroscience, respiratory and inflammation, oncology and infectious disease. AstraZeneca operates in over 100 countries and its innovative medicines are used by millions of patients worldwide. [[Back to Top](#)]

Axsome Therapeutics (108)

Axsome Therapeutics is a biopharmaceutical company developing novel therapies for the treatment of pain and other neurological diseases. By focusing on this therapeutic area, Axsome is addressing growing markets where current treatment options are limited or inadequate. Axsome has a balanced portfolio of clinical development stage as well as research stage products. Axsome Therapeutics aims to become a fully integrated biopharmaceutical company that develops and commercializes differentiated products which increase the armamentarium of caregivers and improve the lives of patients. While the focus of the company is on developing its internally derived product candidates, Axsome also evaluates potential in-licensing opportunities to supplement its current portfolio. [\[Back to Top\]](#)

BK Ultrasound (316)

BK Ultrasound will be exhibiting its latest high-performance ultrasound solutions for anesthesiologists. Our solutions are designed for simplicity, ease of use and high-quality image performance. With our simple user interfaces, high contrast resolution and needle visualization enhancement, our solutions enable anesthesiologists at all experience levels to quickly perform ultrasound guided procedures with confidence and provide the best clinical outcome. [\[Back to Top\]](#)

Boston Scientific (94/95)

Investing in innovative products, clinical initiatives, and world-class service, Boston Scientific is committed to leading the way in

spinal cord stimulation by providing better pain relief to a broad range of patients. [\[Back to Top\]](#)

Clear Guide Medical (515)

The Clear Guide ONE is an ultrasound attachment that is permanently affixed to the ultrasound probe and guides the user to reach a target with a needle or catheter on the first insertion. It is particularly useful in deeper blocks and difficult cases, and can be used both in- and out-of-plane, allowing the clinically optimal path to be taken. By using the existing ultrasound and needles, the Clear Guide ONE gives the user important additional guidance without changing the accustomed workflow, adding utility to the ultrasound machine. Come try it for yourself at Booth 515. [\[Back to Top\]](#)

Cosman Medical (409)

Cosman Medical has designed a unique offering of radiofrequency generators and electrodes for pain management. Our four-output G4 is the most advanced generator ever built. Fully automatic and programmable, the G4 simplifies RF treatment of chronic neck, back, and knee pain while reducing treatment time and costs. SIJ Palisade™ Kit: Faster, easier, more complete sacroiliac joint treatment. RF Cannulae: Smooth, sharp, and steerable. Siliconized, echogenic tips available. CU Unified Electrode: Replaces separate cannula, stylet, and electrode with a single disposable injection electrode. Flextrode™ Disc Kit: Robust and steerable. Direct intradiscal targeting with less disc disruption. Designed and manufactured in USA. [\[Back to Top\]](#)

Depomed, Inc. (105)

Depomed, Inc. is a specialty pharmaceutical company focused on developing and commercializing products to treat pain and other central nervous system conditions. The company was founded in 1995 and has established itself by developing and incorporating promising technology into differentiated therapeutic products, taking those products through clinical approval, and building a strong market presence. [[Back to Top](#)]

Diros Technology Inc. (511)

Diros Technology Inc. is the designer, manufacturer, & distributor of the world renowned OWL Radiofrequency (RF) Products. At our booth you will find a unique combination of products that together have the longest experience and continued success in the RF Pain Management market. With the most innovative OWL URF-3AP Lesion Generator + MLA-4, RF probes, RF Cannulae, and GD-pads - all of your RF needs are met here. The OWL RF Products are the safest, most reliable, most accurate, and easiest to use in the world. Looking forward to seeing you at our booth! [[Back to Top](#)]

Disc Disease Solutions (114)

Disc Disease Solutions is a revolutionary approach in the treatment of lower back, neck and osteoarthritis knee pain due. Our unique and patented traction designs set our Braces apart from all other supports. DDS products are lightweight and easy to use; they offer a high degree of mobility, alleviating as well as

preventing pain. We are the original air brace. [\[Back to Top\]](#)

Doctor.com (508)

Doctor.com is the definitive marketing automation platform for medical practices. More than 11,000 healthcare providers rely on the company's services to acquire new patients, develop and protect their online reputation, and maintain a strong online presence. Doctor.com's services include ProfileSync™, a platform that gives doctors a single point of entry to the digital health and local business ecosystems, and the Doctor.com ReviewHub™, a point-of-care device that captures authentic patient reviews and publishes them to the web's leading consumer health destinations. The company was founded in 2012 and is headquartered in New York City. [\[Back to Top\]](#)

eLab (516)

eLab is a privately held Atlanta, Georgia based life sciences technology and laboratory services provider, serving criminal justice, clinical reference and pain management laboratories. From its beginning in 2005 eLab has utilized specific domain knowledge and expertise to develop and provide innovative solutions to the laboratories it serves. Now with over 150 employees, eLab supports the needs of toxicology and general chemistry laboratories in over 20 states, with applications for both the government and commercial sectors. eLab is investing today, to provide the laboratory solutions which its customers will need to thrive in an ever-changing marketplace. ELSEVIER (97)

ELSEVIER is a leading publisher of health science publications, advancing medicine by delivering superior reference

The Elsevier logo is the word "ELSEVIER" in a bold, orange, serif font.

information and decision support tools to doctors, nurses, health practitioners and students. With an extensive media spectrum - print, online and handheld, we are able to supply the information you need in the most convenient format. [\[Back to Top\]](#)

Flowonix (400/402)

Flowonix is dedicated to helping those who suffer from chronic disorders. Our team has decades of experience

The Flowonix logo consists of the word "FLOWONIX" in a bold, black, sans-serif font, with a small green dot above the letter "O".

developing unique and reliable medical devices to improve lifestyles. Focused on alleviating chronic pain, we are dedicated to working with healthcare professionals to help ease suffering and allow people to reclaim their lives through innovation and therapy advancements. The Prometra II Programmable Pump is our fourth generation implantable pump. Each generation has provided a marked improvement in accuracy, reliability, and battery life. A clinical trial was initiated in 2007 and concluded that the Prometra pump provides industry-leading accuracy and is safe and efficacious. [\[Back to Top\]](#)

GE (102/104)

GE is making a new commitment to health. Healthymagination will change the way we approach healthcare, with more than 100 innovations all focused on addressing three critical needs: lowering costs, touching more lives and improving quality. For more information, visit our website at www.gehealthcare.com. [\[Back to Top\]](#)

Halyard Health (301/303)

Formerly part of Kimberly-Clark, Halyard Health became an independent medical technology company on November 1, 2014. Focused on preventing infection, eliminating pain and speeding recovery. Halyard's clinically-superior products and service help to advance health and healthcare worldwide, selling its recognized brands and products in more than 100 countries and holding leading market positions in multiple categories. Solutions for chronic pain include COOLIEF* Cooled Radiofrequency (RF) Treatment, a revolutionary technology that uses cooled RF energy to safely treat the sensory nerves causing chronic pain, proven to provide up to 24 months of pain relief. For more information, visit www.halyardhealth.com/solutions/pain-management.aspx [Back to Top]

Havel's (204)

Havel's revolutionary EchoStim®, EchoBlock®, and EchoBlock® MSK needles for Ultrasound Guided Peripheral Nerve Blocks and injections have 16 Corner Cube Reflectors (CCR®) in the first 5.5mm of the needle. This focus on the tip allows you to identify the most important part of the needle under ultrasound, and it allows Havel's to sell them at or below what most pay for a regular insulated needle. Havel's Micro Laser Etched (MLE™) needles are also bright under ultrasound and quite inexpensive. They have a variety of tips including block bevels, Quincke points, and the EchoTuohy™. Please call today for a free sample! [Back to Top]

HealthBreeze (111)

HealthBreeze is the world first medical animation studio who

creates medical animations with “Author-Publisher” model. If a Healthcare-related Organization becomes a HealthBreeze

Author, HealthBreeze medical animation team will create high quality Animated Works based on Author Content. The Animated Works will be opened through HealthBreeze Application, easily accessible to healthcare professionals around the world. Installing HealthBreeze Application allows healthcare-professionals to not only show medical animations to their patients and family members, but create their own team with photo banner and Contract Information to send the animations via SMS/Email. When receiving SMS/E-mail, customers can watch the animations on the Smartphone/PC. [\[Back to Top\]](#)

InSource Diagnostics (302)

InSource Diagnostics was founded with a very simple vision: utilize the best quality science to support medication monitoring and drugs of abuse testing. We are passionate about customer service and training, and can help you set up a new testing program or optimize the one you have. Our new SPHERE research study is designed to help identify patients that may be predisposed for adverse drug events (AEs). Stop by our booth to learn how your clinic might participate in this cutting edge research! [\[Back to Top\]](#)

The IT Advisors (92/93)

The IT Advisors are your advisors for all things technical – for a single monthly fee, we’ll support all of your business’ technology, 24/7, 365. Healthcare is increasingly reliant on technology, and you want an army of guys that can tackle any issue, at multiple locations, at the same time – not just a random IT guy. We’ll handle all that annoying compliance and HIPAA stuff, and our one-hour service guarantee means that you won’t have to

worry about downtime; don't let technology give you a heart attack. We are cost efficient. We are dependable. We are the IT Advisors. [\[Back to Top\]](#)

Jazz Pharmaceuticals (306/308)

Jazz Pharmaceuticals plc (NASDAQ: JAZZ) is an international biopharmaceutical company focused on improving patients' lives by identifying, developing and commercializing meaningful products that address unmet medical needs. The company has a diverse portfolio of products and product candidates in the areas of sleep, hematology/oncology and pain. [\[Back to Top\]](#)

Kaléo (217)

Kaléo is a pharmaceutical company dedicated to putting a new generation of life-saving personal medical products into your patient's hands. Each kaléo product combines an established drug with an innovative delivery platform with the goal of achieving superiority, cost effectiveness and patient preference. Please visit us at the kaléo booth. [\[Back to Top\]](#)

Konica Minolta Medical Imaging (506)

Konica Minolta Medical Imaging is a world class provider and market leader in medical diagnostic primary imaging. With over 75 years of endless innovation, Konica Minolta is globally recognized as a leader providing cutting-edge technologies and comprehensive support aimed at delivering real solutions to meet customer's

needs. KMMI creates products and services that innovate and create tangible benefit and value. Konica Minolta Medical Imaging, headquartered in Wayne, NJ, is a unit of Konica Minolta, Inc. (TSE: 4902). For more information, please visit us at www.konicaminolta.com/medicalusa [Back to Top]

Mallinckrodt (512)

Mallinckrodt is a global specialty biopharmaceutical and medical imaging business that develops, manufactures, markets and distributes specialty pharmaceutical products and medical imaging agents. Areas of focus include therapeutic drugs for autoimmune and rare disease specialty areas like neurology, rheumatology, nephrology and pulmonology; neonatal critical care respiratory therapies; and analgesics and central nervous system drugs for prescribing by office- and hospital-based physicians. The company's Specialty Brands segment includes branded medicines/devices; its Specialty Generics segment includes specialty generic drugs and active pharmaceutical ingredients; and the Global Medical Imaging segment includes contrast media and nuclear imaging agents. To learn more visit www.mallinckrodt.com. [Back to Top]

MedCorp (96)

MedCorp is the global leader for high quality new, demo, and refurbished ultrasound systems. With an extensive inventory of ultrasound systems, probes and parts from GE, Philips, Siemens and other major manufactures, MedCorp has been a leader in the ultrasound market since 1999. Whether you are an ultrasound distributor or physician, MedCorp has the equipment, service and expertise to be your strategic partner.

[Back to Top]

MedLogic (89/90)

MedLogic assists physicians in providing personalized drug therapy for individual patients. Coupled with pharmacogenetics testing, MedLogic provides clients with clinical urine toxicology testing that can offer as an effective measuring tool to determine the presence and various levels of illicit or prescription drugs within a patient's body. We also offer other testing services, which include oral fluid testing, blood wellness, sexual health, and hormone testing. MedLogic aims to achieve a high merit through professional proficiency, technological advancement, safe scientific methods and great quality. Through hard work and perseverance, MedLogic continues to provide a quality service to our customers. [\[Back to Top\]](#)

Medtronic (307/309)

Through innovative and collaboration, Medtronic improves the lives and health of millions of people each year. Visit the Medtronic booth to learn more about our targeted drug delivery, spinal cord stimulation, and vertebral augmentation therapies that may help your patients experiencing chronic and acute pain. Explore our technology, services and solutions at medtronic.com. [\[Back to Top\]](#)

Mindray North America (413)

Mindray North America is a company founded on innovation, accompanied by an enduring commitment to customer service and an unwavering dedication to improving patient care.

Mindray offers a full complement of monitoring, anesthesia, and ultrasound products to meet the needs of low to high acuity surgical facilities. [\[Back to Top\]](#)

Myoscience (415)

Myoscience is a privately-held medical device company committed to making its platform technology, the iovera° system, the standard of care for the treatment of peripheral nerves. The iovera° treatment is powered by the Focused Cold Therapy™ delivery system, a patented miniaturization of traditional cryotherapy. Harnessing the unique properties of cryotherapy, the iovera° treatment targets peripheral nerves to immediately block pain with the use of a handheld device. The effect of the cold on the nerve is temporary, and the nerve is restored to function after several months. The iovera° treatment is FDA cleared to block pain. [\[Back to Top\]](#)

NeuroMetrix (314)

Quell™ is a sleek lightweight pain relief device utilizing NeuroMetrix's proprietary wearable intensive nerve stimulation (WINS) technology to provide 100% drug free relief from chronic pain. Quell is designed for people with painful diabetic neuropathy, fibromyalgia, sciatica and osteoarthritis among other conditions and is the only device of its kind that is FDA cleared for use while sleeping. Through Bluetooth® connectivity, Quell users can automatically track their therapy, sleep, and control features via smartphone App. NeuroMetrix, the maker of Quell, is a publicly traded (Nasdaq:NURO) medical technology company founded in the labs of MIT and Harvard that develops wearable technology and neurodiagnostic devices. [\[Back to Top\]](#)

Nevro (401)

Nevro (Redwood City, California) is a global medical device company focused on providing innovative products that improve the quality of life of patients suffering from debilitating chronic pain. Nevro has developed, studied, and commercialized the Senza spinal cord stimulation (SCS) system, which delivers HF10 therapy. HF10 therapy provides more pain relief to more patients in more pain areas, without paresthesia. The Senza system received the CE Mark in 2010, TGA approval in 2011, FDA approval in 2015, and is commercially available in Europe, Australia, and the United States. The landmark SENZA-RCT study demonstrated that HF10 therapy is superior to traditional SCS.

[\[Back to Top\]](#)

Pacira Pharmaceuticals, Inc. (202)

Pacira Pharmaceuticals, Inc. (NASDAQ: PCRX) is an emerging specialty pharmaceutical company focused on the clinical and commercial development of new products that meet the needs of acute care practitioners and their patients. Pacira's primary focus lies in the development of non-narcotic products for postsurgical pain control. [\[Back to Top\]](#)

Pain Medicine News (407)

Pain Medicine News (PMN), the best-read pain publication in the United States according to Kantar Media, is mailed 10 times annually to 45,655 pain-treating physicians. This newspaper offers extensive coverage of pain-related presentations at major clinical meetings and feature articles on topics relevant to practicing clinicians. PMN also presents in-depth clinical and educational reviews written by thought leaders, as well as cutting-edge practice management

articles. [\[Back to Top\]](#)

Pajunk Company (98)

Passionate innovations have been the driving force that has moved the Pajunk Company to the forefront of medical technology. Our family run company brings legendary German engineering and innovative designs to improve procedures, patient comfort, and profitability. For nearly 50 years, Pajunk has led the way in medical systems, including regional anesthesia, laparoscopy, biopsy, and dental. Stop by PAJUNK® booth no.98 to see the E-Cath first hand. Place your CPNB with the NEW and improved E-Cath as easy as a single shot, reduce the risk of leakage and dislocation to a minimum; the kit offers increased ultrasound visibility due to the “cornerstone reflectors” technology and Self-Priming system; double layered design of E-Cath and indwelling catheter enables an unhindered flow of anesthetic. E-Cath integrated injection tubing and luer-lock connection replaces the clamping adapter, therefore eliminating an additional step. The soft catheter tip offers more comfort and safety. [\[Back to Top\]](#)

Parkway Clinical Laboratories (112)

Parkway Clinical Laboratories (PCL) is a CAP accredited, national CLIA certified laboratory performing routine and esoteric diagnostic testing. PCL is primarily focused on serving addiction and pain management specialists, performing Urine and Saliva based substance abuse screening and quantitative confirmation utilizing state of the art LC/MS/MS methodology. We offer a comprehensive test menu for LC/MS/MS analysis, which includes but is not limited to various controlled prescription medications, Z class sedatives, hypnotics, anti-depressants, ecstasy, bath salts and K2-spice. Finalized reports are available within 48 hours of specimen receipt, via a secure web portal, fax, email, courier service or EMR interface.
