

American Society of  
Regional Anesthesia and Pain Medicine

Advancing the science and practice of regional anesthesia and pain medicine

# Supporting companies

This course is supported, in part, by educational grants and in-kind support from industry. All support is managed in strict accordance with the ACCME's Standards for Commercial Support. Appropriate acknowledgement of all supporting organizations is made to participants prior to the educational activity in the program guide, on the event website, and with signage during the meeting. [View the guidelines for company representative participation and in-kind support.](#)

## ASRA thanks the following organizations for their generous support

**Grants:** B.Braun Medical, Halyard Health, Pacira Pharmaceuticals, Pfizer

**Durable equipment:** Anesthesia Innovation & Management, BK Ultrasound, FUJIFILM SonoSite, GE Healthcare, Mindray, Philips

**Disposable supplies:** B.Braun Medical, Pajunk, Teleflex

**Please visit our Exhibit Hall to speak with representatives from the following companies.**

### **AcelRx Pharmaceuticals (119/121)**

AcelRx Pharmaceuticals is a specialty pharmaceutical company focused on innovative therapies for the treatment of acute and breakthrough pain. Our lead products utilize sufentanil sublingual tablets, designed to address moderate-to-severe acute pain in hospital and/or medically supervised settings.

## AIS Pain Care (212)

Got Pumps?  
AIS is the  
industry

**AIS**™ Leading the Way  
in Intrathecal PainCare™

leader in injectable medications for patients with implanted intrathecal pain pumps. Founded in 1998, AIS provides medications to all 50 states and Puerto Rico from our state of the art pharmacy and USP compliant clean room in Jackson, MS. Our patient first, always approach combined with knowledgeable pharmacists that have over 400 years of experience can meet all your intrathecal needs, 24 hours a day, 7 days a week.

## Ambu, Inc. (324)

## American Board of Anesthesiology (112)

The American Board of Anesthesiology (ABA) administers primary

and subspecialty certification exams as well as the Maintenance of Certification in Anesthesiology Program® (MOCA®), which is designed to promote lifelong learning, a commitment to quality clinical outcomes and patient safety. Please visit the ABA booth to get details about MOCA 2.0™ and the MOCA Minute™ pilot app. Staff can also guide you through the ABA website (www.theABA.org) and your portal account.

### **American Society of Anesthesiologists (116)**

ASA® is the leading anesthesiology professional society with more than 52,000 members globally.

Since its founding in 1905, the Society raises and maintains the standard of the practice of anesthesiology through education, advocacy and quality improvement by focusing on patient care and safety. ASA is dedicated to helping physician anesthesiologists and their care teams provide the highest quality of care in a patient-centered, physician led environment.

### **Anesthesiology News (114)**

Anesthesiology News, now in its 42nd year, has been the best-read publication for the specialty for the last 19 years. All 47,516 anesthesiologists in the United States receive a copy every month. It offers extensive coverage of major scientific meetings, feature articles on topics relevant to practicing anesthesiologists, in-depth clinical reviews written by thought leaders, practice management articles, medical education, as well as Special Editions, Buyer's Guides, and a full line of digital media, including website, mobile site, e-Newsletters, iPad app, and multimedia content.

## B. Braun Medical Inc. (217)

Visit booth #217 for hands-on demonstrations of the NeXt Generation Stimplex® Ultra 360® and Ultraplex 360™ echogenic nerve block needles, B-Smart™ injection pressure monitor, SSPNB procedural trays, and Contiplex® Echo PNB catheters. B. Braun Medical Inc., a leader in infusion therapy and pain management, develops, manufactures, and markets innovative medical products and services to the healthcare industry. The Company is committed to eliminating preventable treatment errors and enhancing patient, clinician and environmental safety. Guided by its “Sharing Expertise®” philosophy, B. Braun continuously exchanges knowledge with customers, partners and clinicians to address the critical issues of improving care and lowering costs.

## BK Ultrasound (111)

BK Ultrasound is proud to launch its new bk3500 Ultrasound System, a high-performance ultrasound solution for anesthesiologists. The bk3500 is designed for simplicity, ease of use and high-quality image performance. With the simple user interface, high contrast resolution and needle visualization enhancement, the bk3500 enables anesthesiologists at all experience levels to quickly perform ultrasound guided procedures with confidence and to provide better clinical outcomes.

◆ ASRA CORPORATE  
PARTNER ◆

## **CIVCO Medical Solutions (203/205)**

For over 30 years, CIVCO Medical Solutions has been an industry leader in ultrasound, providing needle guidance solutions and infection control products across the spectrum of care. CIVCO offers a full range of products for regional anesthesia including needle guidance for both in-plane and out-of-plane access.

## **Cumberland Pharmaceuticals (110)**

Cumberland Pharmaceuticals Inc. is a specialty pharmaceutical company focused on the acquisition, development and commercialization of branded prescription products. The Company's primary target markets include hospital acute care and gastroenterology. Cumberland's marketed products include Acetadote<sup>®</sup> (acetylcysteine) Injection for the treatment of acetaminophen poisoning, Caldolor<sup>®</sup> (ibuprofen) Injection, the first injectable treatment for pain and fever approved in the United States, Kristalose<sup>®</sup> (lactulose) for Oral Solution, a prescription laxative, Vaprisol<sup>®</sup> (conivaptan) Injection, for the treatment of hyponatremia and Omeclamox-Pak<sup>®</sup> for the treatment of H. pylori and duodenal ulcer disease. For more information on Cumberland, please visit the Company's website [www.cumberlandpharma.com](http://www.cumberlandpharma.com).

## **Daiichi Sankyo, Inc. (108)**

Daiichi Sankyo, Inc. (DSI), headquartered in Parsippany, NJ, is the U.S. subsidiary of Daiichi Sankyo Co., Ltd., a global pharmaceutical company. The company is focused on the development of cardiovascular and oncology therapies and concentrates in the therapy areas of hypertension, thrombosis, dyslipidemia, diabetes and acute coronary syndrome.

### **FujiFilm SonoSite (304/306)**

SonoSite FujiFilm, the world leader in bedside and point-of-care ultrasound, delivers solutions that meet imaging needs of the medical community. SonoSite has been defining, and redefining, next-generation point-of-care (POC) ultrasound for decades. As a recognized market leader, SonoSite has continued to enjoy remarkable growth while earning worldwide recognition for its progressive product line, educational programs, and advocacy for a broader understanding of ultrasound's multiple benefits. SonoSite continues to influence the future of medical ultrasound in both the clinical and preclinical markets and their systems provide clinicians around the world with a cost-effective tool for improving patient safety and workflow efficiency.

**◆ ASRA CORPORATE  
PARTNER ◆**

### **GE Healthcare (100/102)**

GE is making a new commitment to health. Healthymagination will change the way we approach healthcare, with more than 100 innovations all focused on addressing three critical needs: lowering costs, touching more lives and improving quality. For more information, visit our website at [www.gehealthcare.com](http://www.gehealthcare.com).

## GEDSA (228)

The Global Enteral Device Supplier Association (GEDSA) is a nonprofit trade association formed to introduce new international standards for healthcare tubing connectors. Comprised of manufacturers, distributors, and suppliers worldwide, GEDSA facilitates information flow regarding the ISO 80369 small bore connector initiative which is designed to increase patient safety by reducing the risk of tubing misconnections. GEDSA has developed and executed a communications plan to help organizations, clinicians, administrators, supply chain, and patients prepare for transition to the new proposed standard connectors.

## Halyard Health (103)

## Havel's, Inc. (302)

Havel's revolutionary EchoStim<sup>®</sup>, EchoBlock<sup>®</sup>, and EchoBlock<sup>®</sup> MSK needles for Ultrasound Guided Peripheral Nerve Blocks and injections have 16 Corner Cube Reflectors (CCR<sup>®</sup>) in the first 5.5mm of the needle. This focus on the tip allows you to identify the most important part of the needle under ultrasound, and it allows Havel's to sell them at or below what most pay for a regular insulated needle. Havel's Micro Laser Etched (MLE<sup>™</sup>) needles are also bright under ultrasound and quite inexpensive. They have a variety of tips including block bevels, Quincke points, and the EchoTuohy<sup>™</sup>. Please call today for a free sample!

## HealthBreeze (322)

HealthBreeze is the world first medical animation studio who creates medical animations with “Author-Publisher” model. If a Healthcare-related Organization becomes a HealthBreeze Author, HealthBreeze medical animation team will create high quality Animated Works based on Author Content. The Animated Works will be opened through HealthBreeze Application, easily accessible to healthcare professionals around the world. Installing HealthBreeze Application allows healthcare-professionals to not only show medical animations to their patients and family members, but create their own team with photo banner and Contract Information to send the animations via SMS/Email. When receiving SMS/E-mail, customers can watch the animations on the Smartphone/PC.

## Hospira, a Pfizer Company (224/226)

Hospira, a Pfizer company, is the world's leading provider of injectable drugs and infusion technologies. Through our broad, integrated portfolio, we are uniquely positioned to advance wellness by improving patient and caregiver safety while reducing healthcare costs. We are the recognized leader in IV Clinical Integration, which further supports hospitals in reducing error potential, increasing efficiency and avoiding costs. Learn more at [www.hospira.com](http://www.hospira.com).

## InfuSystem (104)

InfuBLOCK™ by InfuSystem conveniently delivers ultra-high patient satisfaction scores for continuous peripheral nerve block (cPNB) cases at Hospitals and Surgery Centers, alike, at half the

facility's current pump cost... guaranteed... including daily patient monitoring, online patient pain scores, 24/7 hotline support, and so much more.

### **InFuTronix (218)**

InfuTronix provides a portfolio of ambulatory infusion pump products designed to increase customer satisfaction and enhance patient safety in a cost effective solution. InfuTronix's market focus is acute care pain management where there is a need for easy-to-use high-end electronic infusion pumps that have a high level of accuracy and flexibility for the unique needs of the ambulatory pump user. The mission of InfuTronix is to design forward-thinking devices that are capable of setting standards in the evolving pain management programs while understanding the current market needs.

### **Integrated Anesthesia Medical Group (321)**

Integrated Anesthesia Medical Group started in 2007 and has become the fastest growing anesthesia management group in Southern California. Whether you are a seasoned provider or a new graduate, IAMG offers a variety of career paths to satisfy everyone. Working with IAMG presents unique opportunities to explore in challenging and intellectually stimulating environments. We work diligently to help providers find the hospital that is the best fit professionally and geographically from our array of surgery departments and surgery centers. With surgery departments spread throughout California, Pennsylvania and West Virginia, IAMG has the network for you to work close to home.

◆ **ASRA CORPORATE  
PARTNER** ◆

**Mallinckrodt Pharmaceuticals, Inc. (118)**

Mallinckrodt Pharmaceuticals is an industry leader in providing specialty biopharmaceutical

products used in the treatment of autoimmune and rare disease specialty areas, respiratory therapies, pain and related conditions, and diagnostic procedures. The company's three segments include branded medicines and devices, generic drugs and medical imaging. Visit [www.mallinckrodt.com](http://www.mallinckrodt.com) to learn more.

**The Medicines Company (216)**

The Medicines Company's purpose is to save lives, alleviate suffering, and contribute to the economics of healthcare by focusing on 3,000 leading acute/intensive care hospitals worldwide. Its vision is to

be a leading provider of solutions in three areas: acute cardiovascular care, surgery and perioperative care, and serious infectious disease care. The company operates in the Americas, Europe and the Middle East, and Asia Pacific regions with global centers today in Parsippany, NJ, USA and Zurich, Switzerland.

**Mindray (223)**

Mindray, established in 1991, is a leading international manufacturer of medical equipment. We offer a broad range of medical solutions to clinicians including medical imaging, patient monitoring & life support, and diagnostic products. Mindray's

recent acquisition of Zonare, a leader in innovative ultrasound technology, leverages a compendium of imaging products designed to meet our customer's evolving needs for high-end image quality, clinical versatility, and unparalleled value.

### myoscience (220)

### Pacira Pharmaceuticals, Inc (211)

Pacira Pharmaceuticals, Inc. (NASDAQ:PCRX) is a specialty pharmaceutical company focused on the clinical and commercial development of new products that meet the needs of acute care practitioners and their patients. The company's flagship product, EXPAREL® (bupivacaine liposome injectable suspension), indicated for single-dose infiltration into the surgical site to produce postsurgical analgesia, was commercially launched in the United States in April 2012. EXPAREL and two other products have successfully utilized DepoFoam®, a unique and proprietary product delivery technology that encapsulates drugs without altering their molecular structure, and releases them over a desired period of time. Additional information is available on our website.

### Pajunk Medical Systems L.P. (208/210)

Passionate innovations have been the driving force that has moved the Pajunk Company to the forefront of medical technology. Our family run company brings legendary German engineering and innovative designs to improve procedures, patient

comfort, and profitability. For 50 years, Pajunk has led the way in medical systems, including regional anesthesia, laparoscopy, biopsy, and dental. Stop by PAJUNK® booth no. 208/210 to see the E-Cath first hand. Place your CPNB with the NEW and improved E-Cath as easy as a single shot, reduce the risk of leakage and dislocation to a minimum; the kit offers increased ultrasound visibility due to the “cornerstone reflectors” technology and Self-Priming system; double layered design of E-Cath and indwelling catheter enables an unhindered flow of anesthetic. E-Cath integrated injection tubing and luer-lock connection replaces the clamping adapter, therefore eliminating an additional step. The soft catheter tip offers more comfort and safety.

◆ **ASRA CORPORATE  
PARTNER** ◆

### **PharMEDium (207)**

PharMEDium is the nation’s leading provider of pharmacy-outsourced, ready to use sterile admixture services. Highly trained and qualified personnel adhere to rigorous quality standards and applicable cGMPs using only FDA-approved or allowed sterile drugs and FDA cleared sterile containers in our preparations. PharMEDium, a part of AmerisourceBergen, serves over 3,000 acute care hospitals and ambulatory surgery centers through our state-of-the-art 503B Outsourcing Facilities which are registered with the FDA and licensed by the states. As a trusted partner, PharMEDium reliably and consistently meets our customers’ need for customized, ready to use admixtures for critical medication therapies. [www.pharmedium.com](http://www.pharmedium.com)

### **Pikeville Medical Center (106)**

In its 91st year, Pikeville Medical Center is a 261-bed facility and

offers more than 400 services, including every major specialty and most subspecialties. The

nation's only repeat winner of National Hospital of the Year, PMC is dedicated to providing quality regional health care in a Christian environment.

## RESULT, LLC (325)

Who are we? We provide practice management solutions. You concentrate on your patients.

What do we do? >Human

PROVEN.PRACTICE.PERFORMANCE Solutions For Anesthesiologists, By Anesthesiologists

## Script Med PS (315)

Physician dispensing can supplement declining reimbursements & rising overhead costs! Script Med PS, is a national physician dispensing provider with

over 15 years of experience in prescription management, billing and collection services tailored to meet the specific needs of your medical practice. Here at Script Med PS, we understand the details and complexities of running a successful medical practice. Thinking outside the box is vital to remaining in private practice today. Don't put this off any longer and start making the necessary financial changes for your practice today!

## Siemens Healthcare (317/319)

Siemens Healthcare develops innovations that support better patient outcomes with greater efficiencies, giving providers the confidence they need to meet the clinical, operational and financial challenges of a changing healthcare landscape. As a global leader in medical imaging, laboratory diagnostics, and healthcare information technology, we have a keen understanding of the entire patient care continuum—from prevention and early detection to diagnosis and treatment. For further information, please visit: [usa.siemens.com/healthcare](http://usa.siemens.com/healthcare)

◆ ASRA CORPORATE  
PARTNER ◆

## Smiths Medical (113)

Smiths Medical aims to help health care professionals make every intervention successful through the products and services that comprise our infusion systems, vascular access and vital care portfolios. Smiths Medical offers complete pain management solutions for patients requiring regional anesthesia, peripheral nerve blocks, or acute and chronic pain management. Stop by our booth to learn about Smiths Medical's new disposable elastomeric pain pump for pain management.

## Success Concepts Medical (327)

## Summit Medical Products (323)

Summit Medical Products, Inc. brings you an even better way to care for people with the ambIT® Electronic Infusion Pump. The

ambIT® Pump is a sophisticated solution that allows for a safe and volumetrically accurate infusion which can be used for multiple applications including pain management, chemotherapy, and the administration of antibiotics. Many accessories to the pump are available which include catheters and introducers. The unique design meets both domestic and international safety standards and is approved for sale in countries around the world. The ambIT® Pump is high quality yet cost-efficient, and is certified for use by the Military.

### **Teleflex (311/313)**

Teleflex believes in improving the health and quality of people's lives. We apply purpose driven innovation – a relentless pursuit of identifying unmet clinical needs – to benefit patients, providers and society. Every day we challenge the status quo by offering unique but, affordable solutions that deliver positive clinical outcomes. The Arrow® pain management portfolio at Teleflex provides optimal value by offering products and resources that allow clinicians to effectively manage post-operative pain, increase patient satisfaction, and enhance recovery. Our regional anesthesia products include spinal needles, epidural needles, catheters and trays, peripheral nerve block needles, and disposable ambulatory pain pumps.

### **Wolters Kluwer (109)**

Wolters Kluwer is a leading publisher of medical, health and science publications. We offer an extensive selection of medical books, journals and electronic media for doctors, nurses, specialized clinicians and students.

Please visit booth 109 to browse our comprehensive product line.

## XenoPort (225)

XenoPort, Inc. is a biopharmaceutical company focused on commercializing HORIZANT®(gabapentin enacarbil)

Extended-Release Tablets in the United States. XenoPort has entered into a clinical trial agreement with the National Institute on Alcohol Abuse and Alcoholism (NIAAA) under which the NIAAA has initiated a clinical trial evaluating gabapentin enacarbil as a potential treatment for AUD. XenoPort's other product candidates include XP23829, a novel fumaric acid ester prodrug that is a potential treatment for moderate-to-severe chronic plaque-type psoriasis or relapsing forms of multiple sclerosis, and XP21279, a prodrug of levodopa that is a potential treatment for idiopathic Parkinson's disease.
