

[AIS Healthcare](#)

Booth 501

AIS™ HealthCare provides sterile, patient-specific intrathecal pain pump medications and in-home intravenous infusion including Immune Globulin therapies. These services are supported with Advanced Nursing Solutions, providing physicians and patients with in-home pump refills, and a patient-centric Care Coordination Center that assists patients in achieving self-management goals and optimal wellness.

[Ambu, Inc.](#)

Booths 412

Ambu A/S is a Danish company that develops, produces, and markets diagnostic and life-supporting equipment and solutions to hospitals and rescue services. Founded in Denmark in 1937 as Testa Laboratorium by German engineer Holger Hesse, Ph.D. who had the ambition of building a business dedicated to product developments which would contribute to the saving of human lives. The largest business areas are Anesthesia, Cardiology and Neurology in which the most important products are ventilation products for artificial respiration and single-use electrodes for ECG tests and neurophysiological mappings.

American Society of Anesthesiologists®

[American Society of Anesthesiologists \(ASA\)](#)

Booth 111

ASA® is the leading anesthesiology professional society with more than 52,000 members globally. Since its founding in 1905, the Society raises and maintains the standard of the practice of anesthesiology through education, advocacy and quality improvement by focusing on patient

care and safety. ASA is dedicated to helping physician anesthesiologists and their care teams provide the highest quality of care in a patient-centered, physician led environment.

[Anesthesiology News](#)

Booth 613

Anesthesiology News, now in its 43rd year, has been the best-read publication for the specialty for the last 20 years. All 47,850 anesthesiologists in the United States receive a copy every month. It offers extensive coverage of major scientific meetings, feature articles on topics relevant to practicing anesthesiologists, in-depth clinical reviews written by thought leaders, practice management articles, medical education, as well as Special Editions, Buyer's Guides, and a full line of digital media, including website, mobile site, e-Newsletters, iPad app, and multimedia content.

AtriCure

[AtriCure](#)

Booth 109

AtriCure, Inc. provides innovative technologies for the treatment of Afib, related conditions, and pain management. AtriCure's cryoICE technology leverages the power of cryotherapy, a proven and safe practice that has been around for decades, for pain management. The technology delivers a precise freezing temperature to peripheral nerves, providing temporary pain relief. The cryoICE CRYO2 probe is the first and only device indicated for both treatment of cardiac arrhythmias and providing temporary pain relief. For more information, visit AtriCure.com or follow us on Twitter [@AtriCure](https://twitter.com/AtriCure).

[B. Braun Medical Inc.](#)

Booth 201/202

B. Braun Medical Inc. (B.Braun), a leader in infusion therapy and pain management, develops, manufactures, and markets innovative medical products and services to the healthcare industry. The Company is committed to eliminating preventable treatment errors and enhancing patient, clinician and environmental safety.

The B.Braun Group of Companies in the U.S. includes B.Braun, B.Braun Interventional Systems, Aesculap® and CAPS®. B.Braun's U.S. headquarters is located in Bethlehem, Pennsylvania. The B.Braun Group of Companies employs more than 58,000 employees in 64 countries throughout the world.

For more information, call 800-227-2862, e-mail us at inquiry.us@bbraun.com, or visit us at www.BBraunUSA.com.

[Bioness](#)

Booth 005 (outside exhibit hall)

Bioness solutions include implantable and external neuromodulation systems, robotics and software-based therapy programs providing functional and therapeutic benefits for individuals affected by pain, central nervous system disorders and orthopedic injuries. Bioness has a singular focus on aiding large, underserved customer groups with innovative, evidence-based clinical solutions. In addition to functional electrical stimulation devices and neurorehabilitation systems, the technology portfolio includes StimRouter, an implanted peripheral nerve stimulator indicated to treat chronic pain of peripheral nerve origin, excluding the craniofacial region. Bioness clinical solutions are distributed in over 25 countries worldwide. Learn more at www.bioness.com

[CIVCO Medical Solutions](#)

Booth 600

For over 30 years, CIVCO Medical Solutions has been an industry leader in ultrasound accessories, providing needle guidance solutions and infection control products across the spectrum of care. CIVCO offers a full range of products for regional anesthesia including needle guidance for in-plane and out-of-plane access and ultrasound probe covers designed specifically for point of care. Visit CIVCO at ASRA booth #600 to learn more.

[Clarius Mobile Health](#)

Booth 601

Clarius is the only Handheld Wireless Ultrasound Scanner that doesn't compromise on image quality. It produces high resolution ultrasound images and transmits them to most iOS or Android smart devices. With automated gain and frequency settings, Clarius is almost as easy to

use as the camera on your smart phone. Clarius L7 linear array ultrasound scanners are ideal for guiding procedures. www.clarius.me.

[Epimed International](#)

Booth 107

Epimed International, Inc. will be featuring products designed for chronic and acute pain management techniques. We will display the Expanded Line of Racz® Spring Guide Epidural Catheters; RX™, R.K™, and FIC Epidural Introducer Needles; R-FTM Line of Radiofrequency Products; Coude™ and Straight Blunt Nerve Block Needles, Radiation Safety Products, Physician Services, and Anatomical Models. Epimed will also be showing The Painblocker Cryo System. Epimed will also be featuring products designed for Regional Anesthesia. We will display our Wiley Spinal®, Spring-Wound Spirol® Epidural Catheters, Genesis Epidural Spinal Injection Simulator, Nerve Block Needles, and Trays.

[ESRA](#)

Booth 410

The European Society of Regional Anaesthesia and Pain Therapy was founded in 1980 to further regional anaesthesia in Europe. The first congress was held in Edinburgh in 1982 and since that year the society has gone from strength to strength, with a current membership of over 4'300 throughout Europe and beyond.

The scientific standard at the annual ESRA congress is now recognised as one of the best in Europe. The ESRA society holds several accredited cadaver workshops and courses each year and offers grants schemes, diplomas as well as online educational content with the first online congress organised in 2018.

FKS Life and Health Medical Care

Booths 610/612

FKS Life & Medical Care Inc strives to be at the forefront of the evolving healthcare industry. We have embraced change. We are driven to bring strategic solutions to our customers and clients!

Our mission is to promote the “value of health and life” in hopes of prolonging and saving as many lives as possible. At FKS we take pride in establishing an outstanding team that puts public safety first. FKS focuses on quality and innovation. Some of our products include surgical equipment, interventional pain management, endotracheal intubation, nasogastric tube, and nutritional supplements. Each is strategically engineered as a solution to take on issues like pain prevention, lack of nutrition, and life threatening scenarios in the operating room.

Flowonix Medical

Booth 602

Flowonix Medical is dedicated to working with healthcare professionals to provide an optimal solution for the treatment of their patients' chronic pain. We are proud to be a leader in healthcare innovation and continue to advance medical technology to help patients return to normal lives. Please visit www.flowonix.com.

[Fresenius Kabi](#)
